

Providing an easy, flexible and HIPAA compliant way to order Pharmacogenomic testing (PGX)

Order PGX testing and review the results with our easy to use online process.

Ordering Testing is as easy as 1,2,3

You can order testing quickly and easily after you've registered for the PGX Portal and received a confirmation email.

1. Open the **PGX Portal** and click **New Order**
2. Complete all the required fields in each section of the requisition (it takes less than 5 minutes)
3. When finished you will be able to click **Submit Order**

PGX Test Panel

You can choose the PGX testing panel that is best for your patient.

- Click the **Test Options** tab in the PGX Portal
 - Review the four testing panels and select the one right for your patient
1. Full Panel, includes 11 genes that can impact over 100 medications in 32 different drug classes
 2. Psychiatric Panel, includes 4 genes that can impact 44 psychiatric medications in 9 drug classes
 3. Cardiac Panel, includes 8 genes that can impact 15 different cardiac medications
 4. Cardiac Panel with Thrombosis Genes, includes the cardiac gene panel as well as 3 genes considered to increase the risk for venous thrombosis.

Payment Options

We verify and pre-approve your patient's health insurance and even provide self pay options.

- Click the **Payment** tab
- Select the payment option
- Enter the primary and secondary insurance information
- For **Self Pay** a Scion Lab representative will contact your patient directly.

ICD-10

The portal makes quick work of including accurate and up-to-date IDC-10 codes.

- Click the **ICD 10** tab
- In the **ICD-10 Code** field, enter the first few letters of a diagnosis. From the drop down menu select the correct code.
- Enter all the codes relevant to your patient's diagnostic history.

Sample Collection

We make obtaining a buccal swab quick and easy. We will send you fully equipped Scion PGX collection kits (at no charge) or we can send a collection kit directly to your patient. Return shipping is always on us.

- Click the **Sample** tab
- If you select "**The patient's sample has been obtained**", enter the barcode from the labelling tube into the portal along with the sample collection date. Send the sample, signature card, signed consent in the postage paid return package.
- If you select "**Send sampling kit directly to the patient**", please verify patient's mailing address and leave the rest to us!

Medications

PGX test results can assist you in determining which medications may be most effective for your patient, the dosing and whether or not they are at increased risk for side effects.

- Click the **Clinical** tab
- In the Current Medication field, enter the first few letters of a drug and select from the drop down menu the correct medication and dose combination.
- Enter all the medications that your patient is currently taking

Authorization

Our PGX program enables a provider to select the areas of medical necessity they deem appropriate for their patient.

- Click the **Authorization** tab
- Select all the options in the **Medical Necessity** list that are appropriate to your patient.
- Under **Provider Authorization** click the box "I authorize this order" and select your name and address in the drop down menu beside "Provider's Name". The name and address used to register for the PGX Portal will be listed here.

Check Status

Once you have completed and submitted an order, you are able to confirm the status of your submissions.

- Click the **Search Orders** tab
- You can search by name, DOB, phone number or by Status.
- Click the drop down menu of Status field and select the situation that you would like to query ie. submitted. Click the search button.
- A list of all your submitted orders will be displayed.

Taking the guess work out of prescribing medications
